

5 CHANGES 135 MEMBERS FIRST WILL MAKE ON **DAY 1:**

1 Union Leaders Who Show Up

We will improve representation with union leaders who show up for our members all the time, not just at election time. Our leadership needs to work as hard as the members.

2 Stand Up to Management

Members deserve leaders who stand up to management. Too often, top Local 135 officials roll over. We will enforce our contracts and hold employers accountable.

3 Mobilize, Educate, and Inform

Informed members make our union strong. No more keeping members and stewards divided and in the dark. We will empower members to organize, enforce the contract, and develop more leaders.

4 Strong Contracts, Strong Enforcement

Local 135 should be setting industry standards, not lagging behind. We will involve members in negotiations, not shut you out. We won't be afraid to take action to win what we deserve and hold employers accountable.

5 Unity, Power, and Change

We've elected new International leaders who will bring the fight to employers. We can win that change in Local 135 too. That's 135 Members First.
